FASTABS - TWO WAY DISTRIBUTION — GRCON BY GENSER

THE REPORTING AVGRABS IS NOT VERY HIGH SO THE USER SHOULD BE CAUTION IN THE APPLICATION OF THE STATISTICAL RESULTS. OUT OF 543 INDIVIDUAL CASES THERE ARE 316 VALID OBSERVATIONS AND 227 MISSING OBSERVATIONS. THAT FIGURE IS LESS THAN A 60% REPORTING AVERAGE.

PROFESSION OF THE GRANDFATHER BY GENERATION:

IN SOME FAMILIES THE RISE HAS METEORIC AND QUICK WITCH PROVES WHAT MONEY COULD DO FOR A MAN WHEN VENAL OFFICES WERE AVAILABLE. FOR THOSE WHO SERVED FIRST THE OCCUPATIONS OF THEIR GRANDFATHER WAS LOW — QUITE LOW.

PROV PARL	FINANCE MINISTRY	PROV. ADMIN	H. ROYAL ADMIN	L. ROYAL ADMIN	BOUR. (TRADE)	L. LEGAL SYSTEM
4.3	10.0	27.1	1.4	12.1	37.9	6.4

THESE FIGURES WOULD REPRESENT A LOW ESTIMATE BECAUSE MUCH OF THE MISSING INFORMATION CONCERNS THE YOUNGER FAMILIES WHICH HAD SHALLOW ROOTS. IT WOULD NOT BE AN EXAGGERATION TO DECLARE THAT OVER 50% OF THE FATHERS OF FIRST TIME SERVERS WERE MEN FROM THE TRADES WHO HAD ROSEN IN THE EARLY 16th CENT.

FIRST GENERATION:

PARIS PARL	PROV. PARL.	FINANCE MINISTRY	PROV. ADMIN	H. ROYAL ADMIN	L. ROYAL ADMIN	BOURG. (TRADES)	L LEGAL SYSTEM
13.7	9.7	25.8	18.5	.8	6.5	8.9	16.1

WHAT SHOWS A TREND IS THE NUMBER OF FAMILIES WHO WERE LOCATED IN THE PROVINCES AND MOVED TO PARIS FOR A BETTERMENT. FINANCE WAS A LIKELY BACKGROUND SINCE MONEY WAS AN IMPORTANT COMMODITY AND THE GENERAL PATTERN OF MANY FAMILIES

WAS TO HAVE SOME MEMBER OF THE FAMILY INVOLVED IN THE FINANCIAL RUNNING OF THE ROYAL ADMINISTRATION.

THE ROW TOTALS BY THE OFFICE SHOW SOME INTERESTING FACTS: ALL GENERATIONS

MEM OF PARIS PARL	20.6
MEM. OF PROV. PARL.	6.3
FINANCE MINISTRY	14.6
PROV. ADMIN.	19.3
H. ROYAL ADMIN.	1.3
L. ROYAL ADMIN.	12.1
BOURGEOIS (TRADE)	20.3
L. LEGAL SYSTEM	9.2

IT MUST BE CONSIDERED THAT MORE THAN ANY OTHER OCCUPATION, THE BOURGEOIS CHARACTER OF THE GRANDFATHER IS MOST PRONOUNCED. THIS IS ESPECIALLY TRUE WHEN AND IF THE MISSING INFORMATION COULD BE CONSIDERED.

FASTABS – THREE WAY DISTRIBUTION BCON BY PBCON BY GENSER

OUT OF SOME 543 CASES, THERE ARE INCLUDED 321 VALID OBSERVATIONS AND 222 MISSING OBSERVATIONS WHICH MAKES THE REPORTING PERCENTAGE SOMEWHERE AROUND 60%. THIS SAME LOW REPORTING RATE IS THE SAME LACK OF GENERAL GENEALOGICAL FACTS THAT PLAGUE THE SISTERS AND GRANDFATHERS

BROTHERS BY GENERATION:

FOR THE CONSELLORS WHO WERE FIRST TO SERVE IN THE PARLIAMENT, THE NUMBER OF BROTHERS MUST FIRST BE DIVIDED BY TWO SINCE BOTH CASES WOULD REPORT A BROTHER IN THE PARLIAMENT. THUS, THE ADJUSTED FIGURES WOULD BE SOMETHING REARRANGED:

ONE BROTHER IN PARL —	11.4%
TWO BROTHERS IN PARL —	1.4%
ONLY SON —	15.3%
NO BROTHERS IN PARL.	71.8%

ADJUSTED FIGURES FOR OTHER GENERATIONS FOLLOW:

1ST GENERATION

ONE BROTHER IN PARL	17.0%
TWO BROTHERS IN PARL	4.4%
ONLY SON	14.0%
NO BROTHERS IN PARL	61.0%

2ND GENERATION:

ONE BROTHER IN PARL	23.8%
TWO BROTHERS IN PARL.	2.4%
ONLY SON	11.9%
NO BROTHERS IN PARL.	61.8%

IT CAN BE CONCLUDED THAT AS GENERATIONS INCREASE, A LARGER NUMBER OF BROTHER FIND THEIR WAY INTO PARLIAMENT.

Brothers By Occupation

This tries to determine what sort of occupation did the younger sons follow if they were not able to find a position in the parliament. By generation, the results indicate that many were supplied with other, but lower usual positions in the administration.

Again, for the first to serve

	Usual offices	Military	Religious	Melange	No bro.	Bourgeois
First to serve	65.0%	.6%	.6%	15.3%	16.6%	1.8%
1st gen	52.6%	1.8%	4.4%	26.3%	14.0%	.9%
2nd gen	59.5%	2.4%	7.1%	16.7.	11.9%	2.4%

There is not much to conclude here except that among the families connected with the Parliament brought up a class of administrators and bureaucrats. There was not a strong attraction for many of these families for the military. Many went to the clergy but generally the orders/groups, i.e. Jesuits, Dominicans, etc. Most every male received some kind of administrative role, whether high or low, it depended upon the personal ambition and financial backing to climb higher on the social ladder and corresponding political or administrative position.
